PROJECTS

IMAGE TEXT READER
Image Text Reader is a web app to read texts from an image using Google's Cloud Vision API.

REACT UI KIT
React UI Kit is a set of some reusable UI components built in react by following best practices in React.

CONTACTS BOOK
Contacts Book is a responsive web app to store and manage contacts. It's developed following MVC and Publish-Subscribe design patterns in Javascript.

WORK EXPERIENCE

FRONTEND ENGINEER

GRIDLE, Ahmedabad (Aug 18 - Feb 20)

- Responsible for front-end development from scratch to production as a frontend team-lead. Delivered the product successfully on given time. I was part of every discussion and was always up for hotfixes.
- Responsible for translating designs and wireframes into code, coordinating with the client/manager, checking the feasibility of client's requirements and creating reusable, and easy to maintain components.
- Alongside developing features, I was also responsible for finding bugs/ fixing bugs and maintaining the product as well. I took all the responsibility of the delivery of the frontend and was mostly met on time.
- Coordinate the requirements to the team members, assign tasks, do code review and ensure the code quality, do regular sync up with the team, regarding any feedback, blockers in any given task, other work related difficulties.

SOFTWARE DEVELOPMENT INTERN

GEEKMINDZ, Ahmedabad (Jan 18 - May 18)

- Worked with the back-end team to build a Linkedin like social platform for students using ExpressJS and MySQL. Created the whole project structure from scratch for creating a true REST API.
- Mentored my teammates in learning some new features in ES6, I explained why they are necessary, what problems do they solve and how to effectively use them.
